

Note to Residents:

Per a vote of the Board of Selectmen on November 22, 2010, the 2011 water and sewer rates have been established at the following levels:

Water

Tier 1 \$5.45 per 1,000 gallons of use
Tier 2 \$5.91 per 1,000 gallons of use
Tier 3 \$6.35 per 1,000 gallons of use

Sewer

Tier 1 \$4.44 per 1,000 gallons
Tier 2 \$5.23 per 1,000 gallons
Tier 3 \$5.62 per 1,000 gallons

All sewer rates are based on water usage, unless you have public sewer but not public water. In this instance you will pay a flat fee per quarter based on DES standards and number of bedrooms in your residence.

Rates will go into effect with the **March 31, 2011** water/sewer billing cycle. The Town typically bills the last day of each month, on a quarterly basis (ie you receive a bill once per quarter).

Billing questions, such as consumption, can be directed to the Department of Public Works, at 773-6157. Questions regarding overdue payment amounts or outstanding amounts due can be directed to the water/sewer collections office at 773-6108.
